

Kenworth Sales Company Opens Parts and Service Facility in Wyoming

ROCK SPRINGS, Wyo. — Kenworth Sales Company has relocated its parts facility in Rock Springs, Wyo., to a new, much larger parts and service location near U.S. Interstate 80.

A member of the Kenworth dealer network of more than 300 locations in the United States and Canada, Kenworth Sales Company – Rock Springs is in a 10,000 square-foot, facility on two acres conveniently located off Exit No. 99 on I-80. The dealership's 5,000 square-foot service department has five bays and offers Kenworth PremierCare® ExpressLube and Air Conditioning service. The well-stocked parts department has more than 2,500 square feet of parts storage, or nearly five times that of the previous facility.

“We’ve had a terrific response from the community and our customers since we opened our new Rock Springs facility in September,” said Kyle Treadway, president of Kenworth Sales Company, which operates 18 dealerships in Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming. “With new oil shale extraction technology making it possible to recover oil from the Green River Formation, the demand for reliable parts and service support among vocational truck fleets and operators in the area has increased significantly.”

The Green River Formation reportedly has the world's largest known oil shale deposits with an estimated 800 billion barrels of recoverable oil, more than three times the amount of oil in Saudi Arabia's proven reserves.

Kenworth Sales Company - Rock Springs is located at 384 Blairtown Road. The facility is open from 8 a.m. to 5 p.m. Monday through Friday. The phone number is 307-362-6669. Key personnel include: Dan Bates, service manager, and Mike Fredrickson, parts manager.

The new facility is part of Kenworth's constant commitment for superior service coverage as exemplified by Kenworth and its dealer network receiving the 2009 J.D. Power and Associates award for “Highest in Customer Satisfaction for Heavy Duty Dealer Service”*

Kenworth Truck Company is the manufacturer of The World's Best® heavy and medium duty trucks. Kenworth is an industry leader in providing fuel-saving technology solutions that help increase fuel efficiency and reduce emissions. The company's dedication to the green fleet includes aerodynamic trucks, medium duty diesel-electric hybrids, liquefied natural gas trucks, and the Kenworth Clean Power® no-idle system. This year, Kenworth became the first truck manufacturer to receive the Environmental Protection Agency's Clean Air Excellence award in recognition of its environmentally friendly products. In addition, Kenworth is the recipient of the 2009 J.D. Power and Associates awards for Highest in Customer Satisfaction for both Over the Road Segment and Pickup and Delivery Segment Class 8 Trucks. Kenworth's Internet home page is at www.kenworth.com. Kenworth. A PACCAR Company.

* Kenworth received the highest numerical score among pickup & delivery and over-the-road Class 8 trucks and heavy-duty manufacturers in the proprietary J.D. Power and Associates 2009 Heavy-Duty Customer Satisfaction Study(SM). Study based on 2,492 total U.S. responses measuring 4 (over-the-road), 5 (pickup & delivery), 8 (dealer service) manufacturers and measures opinions of principal maintainers. Proprietary study results are based on experiences and perceptions of those surveyed in February – March 2009. Your experiences may vary. jd.power.com.
