

Kenworth Offers Hendrickson EX Air Suspension For Vocational Applications

**Available for Kenworth T800,
W900 and C500**

KIRKLAND, Wash. – Kenworth Truck Company now offers the Hendrickson PRIMAAX® EX suspension for vocational applications with the Kenworth T800, W900 and C500 models.

The Hendrickson PRIMAAX EX is a premium heavy-duty air suspension designed for the rigorous demands of vocational, severe service and heavy haul applications. The new suspension is designed to enhance stability, durability, reliability and handling. Key features include higher roll stiffness; optimized suspension geometry for increased roll stability and expanded applications; re-designed U-beam assembly, air spring, torque rod bracket, and frame bracket for enhanced robustness and durability; increased lift capacity; and no-lube, heavy duty bushings for reduced maintenance.

“Kenworth continues to expand its suspension offering with quality products to help meet customer requirements in demanding vocational applications,” said Jason Skoog, Kenworth director of marketing planning and research.

Kenworth offers the Hendrickson PRIMAAX EX in tandem configurations rated at 46,000 lbs. and 52,000 lbs., and in a tridem configuration rated at 69,000 lbs.
