

New Product Brochures Available For 2006 Kenworth Model T600, T800 and W900 Trucks

KIRKLAND, Wash. – New 2006 model brochures on Kenworth's T600 T800 and W900 trucks, featuring world-class quality, comfort and productivity, are now available on Kenworth's website (www.kenworth.com) and from Kenworth dealers in the United States and Canada.

The new Kenworth T600, T800 and W900 brochures focus on the outstanding ergonomics, fit and finish, and multiplexed electronic instrumentation of the premium interiors in Kenworth's new 2006 models. The brochures also feature Kenworth's key sleeper line options, including the spacious 86" Studio AeroCab® and popular 72" AeroCab, and provide information on the reliability and serviceability of Kenworth trucks.

The 2006 Model T600, T800 and W900 are available with Kenworth Diamond and Kenworth Splendor cab trim levels. An easy-to-use chart helps customers choose interior trim levels and colors. Both Kenworth styles are available in four primary and trim color combinations and come standard with two-tone seats in the same color combinations. Vinyl, velour, Mordura® and leather are seat fabric selections and an optional dense pile carpet provides a rich appearance and feel.

“Kenworth's new 2006 models set new standards for quality, comfort and productivity,” said Steve Gilligan, Kenworth general marketing manager.
