Do you want a medium-duty truck that will most likely outlive the body you put on it? Then there is some very good news: The Kenworth T270 and T370 are two trucks engineered and built to do just that. Designed and built with your long-term business goals in mind.

No matter which model you select, you start with a versatile, rugged and reliable chassis capable of tackling the toughest jobs you’ve got. Then add advantages like contemporary aerodynamic styling, great visibility, excellent maneuverability, a driver-pleasing premium interior and quick single point daily maintenance checks. These are trucks you can count on – day in, day out.

The T270 is a true Class 6 vehicle, rated at 26,000 lbs GVW. Available as a straight truck, it can be configured for non-CDL operation to broaden your pool of drivers.

The Class 7 T370, as a straight truck or tractor, offers a GVW range from 26,001 to 33,000 lbs.

Custom-built from the ground up for your specific application, you can choose manual or automatic transmissions, air or hydraulic brakes and select from components by proven North American manufacturers.

Kenworth’s legendary conventional cab – a strong and quiet environment unmatched in the industry for its longevity and comfort – is part of the package. The quiet, fully-trimmed interior is doghouse-free to increase floor space and operating convenience. The wrap-around instrument panel offers large, easy-to-read glare-free gauges and quick access to driver controls. Standard features include power door locks and passenger-side electric window.

An advanced forward lighting system provides up to 30% more down-road coverage than conventional sealed beam designs. Choose the standard halogen or optional HID Xenon lamps.

The four-piece hood and fenders are molded from Metton, a high-tech light weight composite material for added durability and repairability.

The fully-trimmed standard Pinnacle interior is shown with the optional Kenworth Air Cushion Plus high back driver seat and Kenworth Toolbox Plus passenger seat. Also shown is the workstation between the seats for added convenience.

The optional Apex interior sets new standards in driver comfort for medium duty trucks, providing a cloth headliner and back panel. Optional burl wood dash panels, high back Kenworth Air Cushion Plus seats and center console additions allow you to customize the truck to meet your needs.

IF YOU DEPEND ON MEDIUM-DUTY TRUCKS TO MAKE A LIVING, IT’S TIME TO INVEST IN ONE THAT HAS SOME HEAVY-DUTY THINKING BEHIND IT.
The T270 and T370 are full of convenient service features. The hood tilts a full 90 degrees for wide-open access to the engine and all service points. Both models are equipped with the PACCAR PX-6 engine rated up to 325 hp and 750 lb-ft of torque, or with the optional PACCAR PX-8 engine rated to 330 hp and 1,000 lb-ft of torque. The PACCAR PX-6 offers the highest horsepower to weight ratio of any engine in the industry. The optional PX-8 with up to 1,000 ft-lb of torque is the right choice for more demanding applications. Both engines offer extended service intervals, advanced fuel efficiency and a standard of reliability you’ll measure in peace of mind.
OF COURSE YOU HAVE CHOICES. THIS IS YOUR KENWORTH.

Your medium-duty Kenworth is available with job-specific and appearance options. Here are just a few of them.

- Kenworth-built polished aluminum fuel tanks.
- Heated and electronically-adjusted aerodynamic mirrors.
- Easy-to-operate dash control panel for Eaton automated and Allison automatic transmissions.
- Tilt and telescoping steering column.
- Polished aluminum wheels.
- In addition to the standard peeper window in the passenger door, optional cab corner windows are available to help improve visibility in tight places.
- High energy lithium ion battery and controls for fuel saving Eaton hybrid system.
- Optional center console with two power ports, cup holder and convenient storage.

HEAVY-DUTY SUPPORT WHENEVER – AND WHEREVER – YOU NEED IT

The reliability and moneymaking potential of your business relies on the dependability of your support system – another great reason to invest in a Kenworth.

The minute you take delivery of your Kenworth, you gain 24/7 access to one of the most extensive and reliable parts and service organizations in the trucking industry. People who know your truck inside out and can show you how to lower operating expenses, maximize uptime, optimize truck performance and profit from your investment. Comprehensive preventive maintenance programs, expedited servicing, complimentary roadside assistance and cost management service cards are among the valuable programs available through Kenworth PremierCare®.

Perhaps you’d prefer to focus your attention and resources on your core business, save interest expense and improve cash flow. PacLease offers a number of truck rental and leasing programs that can be tailored to fit your operating requirements precisely. www.paclease.com

Financing and insuring your new truck has never been this easy. www.paccarfinancial.com
**Frame / Axle / Suspension / Brakes**
- Frame - 10 5/8" Steel - 120,000 psi - Heat Treated
- Front Axles - Dana Spicer, 10,000 lb.
- Front Axles - Dana Spicer 8,000 to 14,600 lbs.
- Front Springs - Taperleaf w/Shocks, 10,000 lb.
- Front Springs - Taperleaf w/Shocks, 12,000, 13,200 and 14,600 lb.
- Rear Axle - Dana Spicer, 21,000 lb.
- Single Rear Axles - Dana Spicer from 16,000 to 26,000 lb.
- Tandem Rear Axles - Dana Spicer, 40,000 and 44,000 lb.
- Rear Suspension - Reyco, 20,000 lb.
- Single Rear-Axle Suspensions - Reyco, 21,000 lb to 26,000 lb.
- Hendrickson HAS Air Suspensions, 21,000 and 23,000 lb.
- Brakes - Air
- Brakes - Hydraulic
- ABS System - Bendix
- Hydraulic Brake Configurations with Meritor ABS

**Wheels / Tires**
- Wheels - Steel 22.5"
- Tires - Bridgestone 295/75R22.5 R250F
- Polished Aluminum Wheels
- 19.5" Tires and Wheels

**Battery Boxes / Bumpers**
- Steel Battery Box with Aluminum Step Cover
- Steel Aero-Style Painted Bumper
- Chrome Steel Aero-Style Bumper

**Cab / Hood / Interior**
- Cab - Aluminum and Composite
- Hood - 4-Piece Metton - Sloped Aerodynamic Hood
- Standard Pinnacle Vinyl Headliner and Cab Back Panel
- Apex Cloth Headliner and Cab Back Panel
- Kenworth Air-Cushion Plus Intermediate Back Driver Seat
- Kenworth Intermediate Back Toolbox Plus Rider Seat
- 2-Person Bench Seat
- Power Door Locks
- Passenger-side Electric Window
